### \*\* Cleaning:

Clean with a solution of mild liquid soap and water, then wipe with a lint-free cloth. The use of any product containing silicone, alcohol, or solvents is not recommended, as it will adversely affect the ESD properties of the materials.

### Flammability:

All patterns meet or exceed the flammability requirements of California Technical Bulletin 117-2013, Sec.1. Some patterns have been tested for other flammability specifications. These patterns may contribute to compliance with California Technical Bulletin 133 when used in conjunction with other suitable components.

### Cleaning Codes:

**W:** Water-based cleaning agents and foam may be used for cleaning. Cleaning by a professional furniture cleaning service is recommended.

**W-S:** Water-based cleaning agents and foam may be used for cleaning. This material may also be cleaned with mild, water-free solvents. Cleaning by a professional furniture cleaning service is recommended.

**Memo Samples:** Please contact BioFit at 800-597-0246 or biofit@biofit.com
